Yamamoto  
1948 - 2024

GARY BIST

I painted the Twin Dragons hoping that they will give you mystical power for your following wishes:

- o When you have a strong will and wish to start something new.
- o When you become true to yourself and try to challenge something.
- o When you wish for courage when making a brave, but difficult decision.
- o When you become responsible for an important duty.
- o When you feel there is an opportunity approaching from afar.

# Remembering Hiroshi Yamamoto

---

We will miss Hiroshi Yamamoto  
though he would want us to  
continue doing what he lived for:  
developing ourselves in our study  
of sumi-e art and helping others  
as he helped us.
